SYMPOSIUM25

The HealthTech Ireland Annual Symposium – *Transforming Healthcare, Together* – is being held in Croke Park Conference Centre, on **Wednesday 22nd October 2025**.

In HealthTech Ireland's 43rd year, we will be celebrating the formation of the unprecedented **National Health Collaboration Council (NHCC)**. The NHCC was formed between HealthTech Ireland and the HSE with the vision and purpose to be the bridge for strategic collaboration between the public sector and our members, representing industry to deliver impact across healthcare in Ireland. Alongside the Council's current outputs, this year's Symposium will ensure a unique and bespoke agenda shaped and informed by members and stakeholders, centred around critical cross-sector work while addressing future pressing challenges.

As a 'Not-for Profit', we give approximately 25% of the tickets to senior leaders in the health system, ensuring that you and your organisation will have value and visibility demonstrated to the sector.

As in previous years, the agenda, high-calibre of speakers, and senior attendees will ensure a meaningful, engaging programme that reflects the cross-sector collaboration between industry and the health service. The panels and speakers will be a selection from the HSE and the HCC, hospitals, regulators, agencies, academia, clinicians and other critical organisations and people, along with industry.

This event will be an engaging and informative day, with meaningful and tangible outputs. Your support of this day will give your organisation a unique marketing opportunity, highlighting and elevating your commitment to the sector.

We have a number of exciting sponsorship levels and opportunities.
